

read\_ol\_file

```
graph LR; A[read_ol_file] --> B[hdf5_utils::shdf5_irec_f]
```

A diagram showing a mapping from a source identifier to a target identifier. On the left, a gray rectangular box contains the text 'read\_ol\_file'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'hdf5\_utils::shdf5\_irec\_f'. Both boxes have a black border.

hdf5\_utils::shdf5\_irec\_f
